

KUBE SYSTEMS

# KS Portable™

Designed specifically for the hospitality industry, KS Portable™ is a portable universal charging system with built-in cables for all mobile devices.

- ✓ 9 hours of phone charge time
- ✓ 18,000 mAh Ultra High capacity battery
- ✓ Hardware is fully upgradable

## IS YOUR PHONE OR TABLET BATTERY DYING?

**Charge it on Kube.** Portable charger for up to six devices concurrently. Charge anywhere. You don't even need to bring your cables.

### What phone do you have?

The KS Portable™ has built-in Apple® Lightning, Apple® 30-pin and Micro USB flip out cables suitable for Androids, Blackberrys and virtually every smart phone and tablet available.

### How do I charge KS Portable™?

KS Portable™ is effortlessly recharged with an included Charging Tray, which is capable of charging five KS Portable™ units at one time.

### KS Portable™ Features

- Charge speed comparable to wall outlets
- Provides 9 hours of phone charge time
- Replaceable and upgradable cables
- Security cable attachment points
- Programmable “Time Out” feature

Also, KS Portable™ has two additional USB ports and built-in **Wireless Charging**, powered by Qi technology.

**In the box, recharge your KS Portable™ units with the Charging Tray.**  
**A convenient, commercial grade charging solution.**

### KS Portable™ Security

With a safety slot, you can ensure the security of your Kubes. Checking out a Kube is as easy as slipping the guest's room key, credit card or ID into the adjoining slot. When Kubes are placed free upon tables, optional locking points are available for added security.

### Time Out functionality

Each Kube can be programmed with a variable timeout function to limit user time and avoid power squatting.
